Section 4: Member verification of details and understanding of partial retirement terms				
<p>This is my application for a partial retirement quote. I confirm that the details for the current and reshaped jobs are correct; that my annual rate of salary and permanent pensionable allowances will reduce by at least 20% as a result of job reshaping and in conjunction with partial retirement. <u>I give permission for JSS to obtain from my employer full pay history in order to supply this quotation.</u> I understand that JSS will supply me with a partial retirement quote based on the information contained within this form and pay history supplied by my employer. I have read the guide "Partial retirement – a guide for scheme members". I understand that if I decide to go ahead with partial retirement, my reshaped job must be agreed and approved by my employer and this reshaping will be intended by myself and my employer as a permanent change which will apply through to my final retirement. I understand that I can only partially retire once and that I must apply to take a partial retirement pension no later than three months after reshaping my job. I also understand that if I take partial retirement and subsequently die or take Ill Health Retirement, there will be no enhancement of any pension payable thereafter.</p>
